Truncation and Wildcard Characters

—You can use wildcards to view all words that begin with the same stem. For example, a search for char will return hits on words like Charles, Charley, Charlie, Charlene, or Charlotte.

You can search alternate spellings with the asterisk (*), which represents 0 to 5 unknown characters.

A query for Grif*n will search for Griffin and Griffen, and Griffan among others.

The use of wildcards is restricted to key-words and names and you must specify the first three letters.

?—If you want to search for names that differ only by one letter use the question mark (?) wildcard. A search for Ta?lor will return both Tailor and Taylor.
